

# Cold Black Days (Radio Mix)

## Atrocity

Get away and your life will be released  
Give away all your dreams and all your sins You are playing for forgiveness  
You cry for help  
When your life is over who can tell  
You can't change anything  
Your life is just a dream  
Nothing real nothing more  
Nothing left cause These are cold black days and  
You're fading away  
Life cold dark nights  
And you're longing for light  
These are cold days  
And you're running away  
To be alive again  
To be alive again Look around emptiness and you are falling  
Hear the sound the peal of bells is tolling  
You remember sunny days these times are gone  
All the lovely words are said and done  
You can't change all the things  
Your life is full of dreams  
Nothing real nothing more  
Nothing left cause
