

Switch On Your Radio

Maurice White

Every time I think about the good times, wanna sing and shout

I am the melody, I walk the city wild and free

Just Keep on getting down, groovin' to the beat around

My name is "Sam the Jam", let me take you by the hand

With every step, let's touch the beat

With the streets alive, the rhythm takes your feet Breakout

We're coming out

Let's break out

We're stepping out

There ain't no limit girl, you hear my voice around the world

You'll learn to know my name, dancing on the hot airwaves

Come on and listen to, listen to the groove in you

I'll make your body talk, jamming all your fears away

It's time to let the thunder roll

When lighting strikes, it'll surely light your soul Breakout

We're coming out

Let's break out

We're steppin' out

Turn on to life, celebrate and and come alive

For your heart can't wait, let the music lead the way

Her's a groove, good to you

Let you body talk, let's jam!!!
