# Lady In Black

## Jack Frost

[M+L: Ken Hensley]she came to me one morning
one lonely sunday morning
her long hair flowing in the midwinter windI know not how she found me
for in darkness I was walking
destruction lay around me
from a fight I couldn't winoh lady lend your hand I cried
or let me rest here at your side
have faith and trust in me she said
and filled my heart with life
