I Would Do Anything

Josh Hoge

I know your heart is an open book for me
So I will try to turn the pages carefully
All that you need is what I wanna beAnd if I sit here forever
I want you right here next to me
Breathing every breath I breathe
If I tell you Id never turn my back and push away from you
Is it all that hard to believe?
Yeah[Chorus:]
Id do anything for you
Theres nothing on earth that I wouldnt see through
Take this only heart and make it two
Baby, there is nothing I wouldnt do
Id do anything for you
And no other reason than I wanted to
Whatever kind of journey this love brings,
I would do anythingIt might sound foolish to say the things I do
Oh, yeah, yeah
Ive seen it all, and all I want is you
Just close your eyes
Cause wishes do come trueAnd if I sit here forever
I want you right here next to me
Breathing every breath I breathe
If I tell you Id never turn my back and push away from you
Tell me is that hard to believe?[Chorus:]
Id do anything for you
Theres nothing on earth that I wouldnt see through
Take this only heart and make it two
Baby, there is nothing I wouldnt do
Id do anything for you
And no other reason than I wanted to
Whatever kind of journey this love brings,
I would do anythingAs a love, calling you by name
Hope you feel the same way
Whatever the cost Ill payI would do anythingDo anything for you
No other reason
Take this lonely heart
There is nothing I wouldnt do[Chorus:]
Do anything for you
For no other reason than I wanted to

Whatever kind of journey this love brings,
I would do anything
Oh, baby
I would do anything
Yeah, yeah
I would anything
