

# Two Hundred Feet

## The Moon And Her Mother

If you want to live you'll listen to me  
We'll be walking in fire in two hundred feet  
Get your story straight now before we leave  
I don't like the way they're talking to me  
I've been wrong before I've been wrong before  
The spirit's loosed with  
amplitude  
Coming from my lungs  
We rebuke with borrowed tongues  
So shout it out my love  
Love brought us here into the flames  
You can count on me if they call you names  
We're bringing peace to this broken scene  
I think you should know you look pretty to me  
We've been wrong before we've been wrong before  
The spirits  
loosed with amplitude  
Coming from my lungs  
We rebuke with borrowed tongues  
So shout it out my love  
Shout it out my love  
Shout it out my love  
We can't change a thing  
Shout it out my love  
Shout it out my love  
Shout it out my love  
We can't change a thing  
Shout it out my love  
They're talking to me  
They're talking to me  
They're talking to me
