Here I Wait

GTR

I remember everything just the way it was
You and I were almost one, we shared the some road
Talk of love will last forever through the rack and ruin
All the pain and pleasure that lead to our undoingHere I wait, just to be forgiven
Here I wait until we stand together
Here I wait, trying to cross the borderline
Here I wait until we stand togetherTrying for a real solution, tracing back my roots
There I found a different sign that took me by surprise
I had always thought of you as someone I could trust
It came as such a shock to learn, you play life as you must
Here I wait, I can't wait forever
Here I wait where love is sure to find me
Here I wait, trying to cross the borderline
Here I wait until we stand togetherI wait for you
I wait for you
(Here I wait) whoah
(Here I wait) I wait
(Here I wait) whaoh
(Here I wait) until we stand together(Here I wait) whoah
(Here I wait) I wait
(Here I wait) whaoh
