Quit Breaking My Heart

Mandy Moore

You were my first slow dance thought that we had a chance
But together was too hard for you
Hanging out with your friends and I accept these things
All I need is for you to be true
I know you care but it's just not there
When you're not around I want you there
And you need to stop breaking my heart
Quit breaking my heart, it's tearing apart
All I need is for you to be true
Quit breaking my heart, it's tearing us apart
Baby quit breaking my heart
Baby I don't feel this way 'bout everyone
Something about you boy nothing seems to be quite like this
Holding your hand, touching my face
Standing here waiting for our first kiss
I know you care but it's just not there
When you're not around I want you there

And you need to stop breaking my heart
Quit breaking my heart, it's tearing apart
All I need is for you to be true
Quit breaking my heart, it's tearing us apart
Baby, quit breaking my heart
Quit breaking my heart
I know you care but it's just not there
When you're not around I want you there
You need to stop, you need to stop
Breaking my heart
Baby oh yeah, quit breaking my heart
Quit breaking my heart, it's tearing apart
All I need is for you to be true
Quit breaking my heart, it's tearing apart
All I need is for you to be true
Quit breaking my heart
