

My Window Faces the South

[Willie Nelson & Lukas Nelson](#)

My window faces the south I'm almost halfway to heaven
Snow is falling but still I can't see fields of cotton
calling to me
My window faces the south and though I am far from the Swanee
I'm never frownin' or down in
the mouth my window faces the south [fiddle - ac.guitar]
My window faces the south...
My window faces the
south
