

Dog Inside Your Body

Butthole Surfers

I know you love me, darling
And I love you
Every time I touch your face
Every time I choose
I love the feeling
Of loving you
I'm tired of touching you
I want to cut on through
I love you darling
Everything you do
I want to be there
When you feel them cutting through
I feel you
I need you
I want you, now
I know you love me
I hear you call
You know i'll be there
Hereafter, after
All I every see you
Do inside your bed
Don't you think you could
Replay them once inside my head
I remember caesar
He remembers you

Knows all the things you tell me
Everything you do
I feel you
I need you
I want you, now
Why don't you call me
You never read my note
You got a dog inside your body
Its got you by the throat
I really love you
Wanna feel your pain
Wanna drag you cross the ground
And out inside the rain

Gotta feel you darling
Gotta have you near
Gotta be there when they cut you
Gotta feel your fear
I love you in the morning
I need you in the fall
I want to see them cut you
Feel them feel you when you growl
Why don't you call me
You never read my note
You got a dog inside your body
Its got you by the throat
