

# Set Down Your Glass

## Snow Patrol

Just close your eyes and count to five  
Let's craft the only thing we know into surprise  
Set down your glass, I painted this  
To look like you and me forever as we're now  
And I'm shaken then I'm still  
When your eyes meet mine  
I lose simple skills  
Like to tell you all I want is now  
You sing, I'm killed, I'm just not the same  
As I was a year ago and each minute since then  
My jumper tears as we take it off  
You say you'll sew me good as new and I know you will  
And I'm shaken then I'm still  
When your eyes meet mine  
I lose simple skills  
Like to tell you all I want is now  
And I'm shaken then I'm still  
When your eyes meet mine  
I lose simple skills  
Like to tell you all I want is now
