

Wizard Man

Procol Harum

Wizard man's got a magic tooth
Carry it low but keep it loose Don't wait for Christmas
When the four winds blow
When they carry you out
You're gonna have to go Wizard man's got a pocketful of lead
Keep a clear eye and a steady head Don't wait for Christmas
'Cause it's bound to snow
When they carry you out
You're gonna have to go Wizard man's got an angel's heart
Show it slow but do it sharp Don't wait for Christmas
Join a traveling show
When they carry you out
You won't want to go
