

A Song They Won't Be Playing On the Radio

[Molly Nilsson](#)

Follow the light
to the other side of the night
And listen closely to the clouds
as they slowly pass you by
Don't fall in the stream
it'll swallow your dreams
It happened to a girl in a film I saw
Like a song they won't be playing on the radio
You won't be seeing on a TV show
I heard my life be told
Follow the light
to the other side of the night
And walk the streets to find out where they lead
With the wind on my back and the sun in my face
I'll be walking the path, I'll be falling from grace
Go where no ones been before
Like a song they won't be
playing on the radio
You won't be seeing on a TV show
I heard my life be told
