

Never Let You Down

Tokio Hotel

No I'll never let you down (you down)
No I'll never let you down again Headphones, headphones
Stereo in my ear
Rainbows, rainbows
Above my head I see you
Hello, hello
Like I was never here
Ain't got nobody
Ain't got nothing I can feel
Blackout, blackout
I'm on my way downtown
They shout, they shout
Accelerating sounds
Sold out, sold out
I kinda cross the crowd
Bitch I was faded
And I'm staring at the dancehall Now I see your face again,
This time, it's love
We're more than friends No I'll never let you down (you down)
No I'll never let you down again
Baby I will never never never again
Baby I will never never let you down again Don't stop, don't stop
Let's finish what we started
So hot, so hot
So close to brokenhearted
I got, you got
The tickets to the stars and
I promise everything of you
I cannot keep right Now I see your dance again,
This time, for real
We're more than friends I wanna fly with you above the end
I promise you I'll be a better man again No I'll never let
No I'll never let
No I'll never let you down again
Baby I will never never never again
Baby I will never never let you down again
I never let you down (I, I)
Never let you down (I, I, I)
(I)
