

# Throway

## Bratmobile

you make me feel  
so selfish you make me feel like  
such a jerk always taking all my  
licorice and say you wish that things  
would work How do i feel about you?  
I don't know i don't feel anymore Who  
the hell are you anyways i don't know  
i don't care anymore. You go skip across  
the country + shove it all back in my face  
and then you break it to me gently some  
KISS girl was the case yer really not  
impressing me now that i am more  
appeasing taking everything for free to  
lay me down i'm freezing if we could be  
friends today could we share In a special  
way or let me know when its OK if it's  
easier just to throway.
