

Saviors of the World

Skillet

[Verse 1]

Streets filled with blood, black and red
Dreams and hearts that once knew love are cold and dead[Pre-Chorus 1]

Breathing rust, it's come to this
We burnt to dust, an apocalypse
But we could live again if we can find ourselves

[Chorus]

We are the saviors of the world
And I will not be ruled
We are kings and conquerors
And I won't bow to you
They will not control us anymore
We will not conform, not anymore
We are the saviors, the saviors
The saviors of the world[Verse 2]
Cities will burn, the end is come
Paradise is lost, we wonder what we've done[Pre-Chorus 2]
Riches rust

The iron fist crashes down on the powerless
But hope could live again if we can find ourselves[Chorus]

We are the saviors of the world
And I will not be ruled
We are kings and conquerors
And I won't bow to you
They will not control us anymore
We will not conform, no, anymore
We are the saviors, the saviors
The saviors of the world[Chorus]
We are the saviors of the world
And I will not be ruled
We are kings and conquerors
And I won't bow to you
They will not control us anymore
We will not conform, not anymore
We are the saviors, the saviors
The saviors of the world
