All E.T:s Aren't Nice

S.P.O.C.K

Magazines and movie screens are showing us
aliens who are visiting earth, they are cute and nice
It's all a thing to make us feel superior
Hiding the truth about monsters who will conquer us
Face the fact, beware of an attack,
all E.T:s aren't nice
They might be here any night so get ready for a fight,
all E.T:s aren't nice
In the USA the CIA doesn't want us to know
about experiments with aliens and UFO:s
So load your gun and get together, join the ARM
Save the planet, never surrender, let's give them hell!
Face the fact, beware of an attack,
all E.T:s aren't nice
They might be here any night so get ready for a fight,
all E.T:s aren't nice
