

Midnight Hours

Wunder Wunder

oo we're not the same
Can you hear what you feel when you hide it in all the insane?
Ooo come out again
I remember the walks on the tracks to the midnight lagoon
We'll wave to the night eyes as they wave to us
We'll wait for the bright lights to come
In the midnight hours
Ooo it's not a game
but we play our parts and we mix the people around
Ooo a constant flame
that we hand on out and fuel on up for the tame
We'll wave to the night eyes as they wave to us
We'll wait for the bright lights to come
In the midnight hours
Wasn't it a scene in the light with our changing lives
In the midnight hours
We took a little wander through the forest in the changing times
In the midnight hours
Every single word I sent you never seemed to understand
Tomorrow help me find a better way to go
In the midnight hours
Every single word I sent you never seemed to understand
Tomorrow help me find a better way to go
Wasn't it a scene in the light with our changing lives
In the midnight hours
We took a little wander through the forest in the changing times
In the midnight hours
