

# Our God's Alive

[Andy Cherry](#)

Come on everyone, see what he has done, he has lifted us, he has overcome, the power of the grave, and the sin  
that once enslaved, couldn't hold him in the ground, couldn't keep him down

Rise with a shout, cry out, our Gods alive  
Rise holy fire, burn bright, burn bright  
Rise with a shout, cry out for freedom  
Rise church arise, our Gods alive

Reigning on his throne, drawing ever close, giving us this hope he'll never let us go, death has defeated, Jesus  
Christ redeemer, conquered hell and freed us, forever we are saved

Rise with a shout, cry out, our Gods alive  
Rise holy fire, burn bright, burn bright  
Rise with a shout, cry out for freedom  
Rise church arise, our Gods alive

He alone can save us, he will not forsake us  
He remains forever, our Savior  
See him reign in power, stronger than our failures  
Always and forever, our Savior

Rise with a shout, cry out, our Gods alive  
Rise holy fire, burn bright, burn bright  
Rise with a shout, cry out for freedom  
Rise church arise, our Gods alive//
