Get Away

CHVRCHES

I can only see you when I close my eyes
There's nothing left of you here
We had the time, we had the time

The things that I remember I do not regret
They don't mean a thing here
We had the time, we had the time

I'll be your guide
So you can see the other side
Then I will never let you get away
Never let you get away

I'll hold you hands so you can see
Crossing your heart and hoping
To never let you get away
Never let you get away

Everything you prayed for is not overhead
No one else will save you
Wake up your mind
Wake up your mind

Trust me when I tell you
We are on our own
Overlap your fingers
And run through the pines
We'll run through the pines

I'll be your guide
So you can see the other side
Then I will never let you get away
Never let you get away

I'll hold you hands so you can see
Crossing your heart and hoping
To never let you get away
Never let you get away

I'll be your guide

So you can see the other side
Then I will never let you get away
Never let you get away

I'll hold you hands so you can see
Crossing your heart and hoping
To never let you get away
Never let you get away

Never let you get away
Never let you get away
Never let you get away
Never let you get away
