Wild Wind

Robert Earl Keen

Down on Main Street after sundown
Good time Charlie and wandering Bill
Thought they might hold up old Hoppy's Drive In
One got away one never willAnd that's the way it goes around here
I think everybody knows
That's the song we've been singin' for years
That's the way the wild wind blowsToo tall Annie kept her money
In a Bible she never read
They found Lefty her first ex-husband
In his new pickup truck at the bottom of the river bedAnd that's the way it goes around here
I think everybody knows
That's the song we've been singin' for years
That's the way the wild wind blowsLuther Martin, he ain't got nobody
But he sells papers and buys his wine
His great granddaddy owned half of Main Street
Luther's daddy didn't have a dimeAnd that's the way it goes around here
I think everybody knows
That's the song we've been singin' for years
That's the way the wild wind blowsAin't no secret ol' Doc Skinner
Wrote prescriptions made lots of friends
He could dance like nobody's business
Folks around here are sure missing himAnd that's the way it goes around here
I think everybody knows
That's the song we've been singin' for years
That's the way the wild wind blows, it blows
