

# Medicine

Kelly Clarkson

Bet you won't like to hear that  
since we've been over got that stress off my back  
I'm living my life like a celebration  
changing my vision like a revelation You gave me fever love but too much drama  
and I ain't even worried about it  
cause I'm too far gone now  
far gone now, oh yeah I ain't even thinking 'bout you  
I ain't even thinking 'bout you  
Don't talk about ya  
Almost forgot about you  
Said, I ain't even thinking 'bout you  
I ain't even thinking 'bout you  
Don't talk about ya  
Almost forgot about you So watch out your  
Cause love's not allowed  
your touch don't heal now  
I'm good  
And I know  
Without it I'm strong  
Can't hold it down for long  
I'm not bothered anymore Can't get me high  
Never got me lit  
never bring me up  
Always drag me down  
I'm through with it  
You ain't my medicine  
I gave you plenty chances  
to hear my soul but you just caused more damage  
How does it feel to know  
I'm better off without ya  
Playin' games around my head a thousand times  
Almost damn near lost my mind I ain't even thinking 'bout you  
I ain't even thinking 'bout you  
Don't talk about ya  
Almost forgot about you Said, I ain't even thinking 'bout you  
I ain't even thinking 'bout you  
Don't talk about ya  
Almost forgot about you So watch out your  
Cause love's not allowed

your touch don't heal now  
I'm good  
And I know  
Without it I'm strong  
Can't hold it down for long  
I'm not bothered anymore Can't get me high  
Never got me lit  
never bring me up  
Always drag me down  
I'm through with it  
You ain't my medicine Like damn  
Always felt so cold  
always felt so cold  
had to let that go  
I'm better on my own  
You ain't my medicine You ain't my med-  
You ain't my med-  
you ain't my medicine You ain't my med-  
You ain't my med-  
you ain't my medicine You ain't my med-  
You ain't my med-  
you ain't my medicine You ain't my med-  
You ain't my med-  
you ain't my medicine So watch out your  
Cause love's not allowed  
your touch don't heal now  
I'm good  
And I know  
Without it I'm strong  
Can't hold it down for long  
I'm not bothered anymore Can't get me high  
Never got me lit  
never bring me up  
Always drag me down  
I'm through with it  
You ain't my medicine Like damn  
Always felt so cold  
always felt so cold  
had to let that go  
I'm better on my own  
You ain't my medicine
