## **Force of Nature**

Force Of Nature LyricsYou move, a little closer You feel, the force of nature We touch, And something charges the air You look into my eyes And you can't look away It's no surprise I planned it out this way And now I knowAh, a-whoo You're completely bewitched Caught under my spell Ah, a-whoo Completely bewitched Your body will tell you What to doIt's sorcery the way I draw you to me So don't try to struggle You are captured in my web Just like a voodoo doll I make you move 'Cause I know what I like And I like youAh, a-whoo You're completely bewitched Caught under my spell Ah, a-whoo Completely bewitched your body will tell you What to doAh, a-whoo You're completely bewitched Caught under my spell Ah, a-whoo Completely bewitched Your body will tell you What to doNow close your eyes And surrender to the moment Reach out your hand, and touch me I am your gravityAh, a-whoo You're completely bewitched Caught under my spell Ah, a-whoo

Completely bewitched Your body will tell you What to do
