

# Clay Blaker

[Tim Mcgraw](#)

Some people say I'm one of those guys with blessings in life overlooked  
All the places I've played and the money I've made  
Still I've got nothing to show  
Sometimes I feel like the tatter torn pages of some old paperback book  
And the only thing that I have left in the whole wide world Is you  
You put your whole life into somethin' you love and you never get that one big break  
Gotta take you out of the back street bars and put you on center stage  
And the only thing that I have left in the whole wide world is you  
I gave it all I had every night for all these years pourin' out my soul  
But a million tears and a million beers have just about washed me up 'Til it was gone  
I spread myself so thin And I'm just barely hangin' on  
But tonight I'm with you and you can carry me through  
I gave it all I had every night for all these years 'cause the only thing that I have left in the whole wide world is you  
Just love me Pourin' out my soul til it was gone  
But tonight I'm with you and you can carry me through  
Just love me I spread myself so thin and I'm just barely hangin' on  
'cause the only thing that I have left in the whole wide world Is you Oh, is you
