

Repatriated

Handsome Furs

Where did the future go?
I was feeling down, I was feeling so low
Had to get out, had to get out
Parts unknownWhere did the feeling go?
I got it back when the plane touched down
I was over, I was over
Oh wellHere it comes
Here it comes
Here it comes
Here it comesThe frozen land
I'm never going back there
It was a lie, a lie believing itself
And it's so hardI saw a light, saw the reconstruction
And I will go, I will go
Out in the heat and they rush
and they push us by a knifeYour little heart is gonna be sewn
Where did the future go?
Parts unknown
Parts unknownYour little heart is gonna be sewn
Where did the feeling go?
It comes and goes
Comes and goesHere it comesYour little heart is gonna be sewn
Where did the feeling go?
It comes and goes
Comes and goesThere it comes
Here it comes
Oh
BlackoutI've seen the future and it's coming in low
I've seen the future, I will never be repatriated
I've seen the future and it's coming in low
I've seen the future, I will never be repatriatedI'll never be repatriated
Never be repatriated
I'll never be repatriated
Never be repatriated
Never be repatriated
Never be repatriated
