Slow Down the Flow (Antiyu Radio Edit)

[Tal](#)

World, world, world take time to breathe
Everybody is always in a hurry
Everybody is always in a hurryWe all have dreams, hopes and desires
The world has changed, what can we do
We try to run from the rush hour
But nothing goes like it shouldPass me by like I'm a stranger
Don't you see the smile I have to offer
Tell me when It is all overWhen it's all moving a lil slower
Can we slow down the flow?
Every second seems a lil longer
Can we slow down the flow, heyy heyy
We don't need to run run run
When the problem come, they will come
We can overcome, come, come, come, heyy heyy
We don't need to run run run
Life can be so fun, make it fun, make it fun
We can overcome, come, come, come heyy heyyEverybody is always in a hurry
Everybody is always in a hurryWe all have dreams, hopes and desires
The wait is long, It's pressuring you
Life has a way to turn it all over
And I believe it is trueEvery day you getting stronger
Don't you feel life is a little better
Feel so good when It's all over
When It's all moving a little slower
Can we slow down the flow
Every second seems a little longer
Can we slow down the flow heyy heyy
We don't need to run run run
When the problem come, they will come
