

# Angels With Even Filthier Souls

## Hawthorne Heights

Just stay the night  
And we'll see that things can work out  
And this will last forever  
How long can we wait for things to change  
And this will last forever Every day, this I say  
Turn to dust and fade away  
This will last forever  
Every day, this I say  
Turn to dust and fade away  
This will last forever Still waiting for tomorrow  
Just wait for today to close my eyes  
Waiting for tomorrow  
Just wait for today to say goodbye She never said she loved me  
She never said goodbye  
She never said she loved me  
She never said goodbye Just stay the night  
And we'll see that things can work out  
And this will last forever  
How long can we wait for things to change  
And this will last forever Every day, this I say  
Turn to dust and fade away  
This will last forever  
Every day, this I say  
Turn to dust and fade away  
This will last forever Still waiting for tomorrow  
Just wait for today to close my eyes  
Waiting for tomorrow  
Just wait for today to say goodbye
