Make Believe

James Iha

You rush in wish stars in your hair
You cast your spell and float through the air
Amaze me I've been asleep for too long
I try to catch a glimpse, I've waited so longMake believe
Failing free
We're in a dreamWhen you wake
To summer rays
If you stay with meHold you closely
Turn You slowly
My hands are weary
Your heart is near meSpeed of light
Flashing bright
Try to breath
Believe, believe in meLook to the sky there's a thousand stars
You're moving so fast, you're never that far
Wait for you under the moonlight
The morning comes and I'll never know whyMake believe
Falling free
We're in a dreamWhen you wake
To summer rays
If you stay with meHod you closely
Turn you slowly
The music is fading
My heart is swayingSpeed of light
Flashing bright
Try to breath
Believe, believe in me
