

# Only With You

Keyshia Cole

Ooh,  
Never knew it would feel this good to me baby,  
I feel like im above the clouds and boy my heart just won't let me come down  
With you its like the perfect picture painted from my eyes  
And I only long for you I'll never take you for granted  
Boy i'll always be here  
Of all the people on this planet  
Only you can take me there Only when I'm with you,  
(My life just gets better)  
Only with you,  
(My love is forever)  
Only when I'm with you,  
(Each moment i'll treasure)  
Only when I'm with you, with you, with you... Only with you ... ooh, only with you , whoaa We got the perfect  
chemistry,  
Don't we baby  
It's like we're on the permanent getaway,  
And there ain't no one around.  
Where you are like,  
The perfect melody that's in my mind,  
And my heart belongs to you. I'll never take you for granted  
Boy I'll always be here  
Of all the people on this planet  
Only you can take me there Only when I'm with you,  
(My life just gets better)  
Only with you,  
(My love is forever)  
Only when I'm with you,  
(Each moment I'll treasure)  
Only when I'm with you, with you, with you... It's hard to find the words to say,  
Cause boy you mean that much to me.  
I'm the flower you're the sun & rain.  
You're the candle I'm the flame,  
You light me brighter than the day,  
I will never be the same again... Only when I'm with you,  
(My life just gets better)  
Only with you,  
(My love is forever)  
Only when I'm with you,

(Each moment I'll treasure)  
Only when I'm with you, with you, with you...  
[Repeat 2x
