

# Ride

## Robert Bradley's Blackwater Surprise

I still back remember  
Sitting down on my mother's knee  
She told me a story about love  
How it was gonna be a mystery Oh, I used to know ya  
Back when you were in high school  
Went off to college  
Got you some knowledge  
Now you think I'm a fool Go on and ride, go on and ride  
Hold your head up high  
Go on and ride, go on and ride  
Hold your head up high Thought I saw you again yesterday  
Smile, baby then fade away  
See you in my dreams  
Up there on the movie screen  
Now you think I'm alive Oh, I used to know ya  
Back when you were in high school  
Went off to college  
Got you some knowledge  
Now you think I'm a fool Go on and ride, go on and ride  
Hold your head up high  
Go on and ride, go on and ride  
Hold your head up high Go on and ride, go on and ride  
Hold your head up a little higher  
Go on and ride, go on and ride  
Hold your head up high Oh, all your life, go on and ride  
Hold your head up high  
Keep on walkin', keep on walkin'  
Hold your head, hold up high Keep on walkin', walkin', walkin', walkin'  
You got to keep on, keep on walkin'  
Walk on, walk on, walk on, walk on, walk on
