

# American Apparel Ad Girls

## Willam, Courtney & Alaska

I like it when you don't touch my hair  
I prefer it if you don't touch my hair  
Chapstick and mascara  
Dawson's 50 load weekend  
Anus  
Laser hair removal  
Willam... perhaps?

We know it when you're creeping  
You know (?) is there  
So, please, feel free to like us  
And buy these tops we wear  
These ill shirts

Oh my god, I'm on that t-shirt  
They're good shirts  
Fag swag  
They're good shirts  
This merchandise is for sale  
Sickening  
Bisexual uber-drivers  
Tell me about it  
My voice  
Lupita N'yongo  
Delicious

The Courtney Act patented lubing technique  
You play the saxophone?  
I thought you said you said you were good at sex  
Alaska... 5000

Capezio pantyhose without any runs (no runs)  
Feeling my oats when I'm out with Gia Gunn  
Queens with old school names like Nicole Paige Brooks  
And having Mathu Anderson beating your face  
Being tucked continuously for a month  
Or being one of the American Apparel Ad Girls

Being one of the American Apparel Ad Girls... know what I mean?  
I like Britney Spears circa 2007  
Oh, I love it when it smells like your mom washes your clothes

I like Ariana Grande so much I wanna order an Ariana Venti  
I like turtles  
What?  
I like people who are pretty in their own unique way, so... no  
I like your pussy  
I like happy cow  
I like it when you drink an espresso and you have to poop immediately  
I like turtles

We know it when you're creeping  
You know (?) is there  
So, please, feel free to like us  
And buy these tops we wear  
These ill shirts

I like when you don't touch my hair  
They're good shirts  
I like when you don't touch my hair  
No, I'm serious  
They're good shirts  
I prefer it if you don't touch my hair  
Sickening  
Please, stay the fuck away from my hair

We know it when you're creeping  
You know (?) is there  
So, please, feel free to like us  
And buy these tops we wear  
These ill shirts  
They're good shirts

They're good shirt, baby  
They're good shirts  
Sickening  
That's all
