GENOCIDE

Tatsh

We've been beating cheeks for the better part of our existence
Constantly spreading disease of our humanity

Rotting her... Out

We've been fucking this whore
Mother earth for awhile
She's a filthy bitch anyway [x2]

Rotting her from the inside
Penetrating deeper and deeper every day
We are at our end
So let's continue to move forward and destroy ourselves

Rotting her... Out [x2]

Genocide of all humanity
Genocide of your reality [x2]
