

# GENOCIDE

Tatsh

We've been beating cheeks for the better part of our existence  
Constantly spreading disease of our humanity

Rotting her... Out

We've been fucking this whore  
Mother earth for awhile  
She's a filthy bitch anyway [x2]

Rotting her from the inside  
Penetrating deeper and deeper every day  
We are at our end  
So let's continue to move forward and destroy ourselves

Rotting her... Out [x2]

Genocide of all humanity  
Genocide of your reality [x2]
