

# You Burn First

## Alexisonfire

I said, "Come here, if there is a fire  
Cause I want you  
To burn first"

She screamed at me, "I want to be desired"  
I said, "Easy girl,  
I know it hurts"

So, I'll give thanks,  
But I am a liar  
Cause I got a feeling  
I just might get worse

Now there's nothing wrong with you  
I'm just tired  
And I need you for a brand new curse

You burn first  
You burn first  
You burn first

"Come here, if there is a fire  
Cause I want you  
To burn first"

She screamed at me, "I want to be desired"  
I said, "Easy girl,  
I know it hurts"

So, I'll give thanks,  
But I am a liar  
Cause I got a feeling  
I just might get worse

Now there's nothing wrong with you  
I've just grown tired  
And I need you for a brand new curse
