

# Rude

## Dinosaur Jr.

I'm here to curse my own tongue again  
For it's wrong again  
Untrue Oh I'm the only one, they noticed it[?]  
Hung over it, seem to(Be) falling from my mouth before I move  
Not helping any point I'm trying to prove  
Just smiling there, darling in the end I wish I didn't care,  
'Cause caring is rude I'm here to curse my own name again  
Make it plain again  
For you Do you really think that if I could change,  
The world could change, that's not true 'Cause you are young and we don't share a soul  
And nothing I could say would gain control  
Oh nature rushing me back to the cell  
It's better for my health If I hold it true[?],  
'Cause caring is rude You are young and we don't share a goal  
And nothing I could say would gain control  
Oh nature rushing me back to the cell  
It's better for my health If I hold it true[?],  
'Cause caring is rude  
Nature is cruel
