

# Skills In Pills

## Lindemann

[Verse 1]

If you want to die  
Or if you want to chill  
Even if you want to get high  
Whatever happens - take a pill  
The first I take against depression  
The second is pure energy  
The green one for my self-agression  
Than the red one - extasy  
Extasy, -sy, -sy, -sy [Chorus]

All the left is right  
All the black is white  
All the fast walk slow  
All the loose is tight  
All the heat is snow  
All the high was low  
All the grief is fun

All the, all the rain is sun [Verse 2]

If the jake gets really strong  
The pink one goes with boobs and blow  
I keep fucking all night long  
Orange is for... I don't know  
Grey one for my perfect sleep  
Yellow for my need for puke  
The blue one keeps my boner steep  
I drink too, just to be sure [Chorus] [Bridge]

Skills in pills  
Skills in pills  
Skills in pills

Skills in pills [Chorus] [Outro]

The white one for whatever pain  
In the end I start to cry  
So I take the first one again  
I have last one  
And I hope to die
