

# Not This Time

## Tear It Up

You know I put my faith in you  
(I gave it all to you)  
There's nothing left for me to prove  
(There's nothing left for me)And I won't be there when you fall  
And I won't care at all  
Not this time, not this time  
Not this time, not this time  
Where you stumble's where you fall  
And I won't care at all  
Not this time, not this time  
Not this time, not this timeSo I push myself away  
(I draw away from you)  
Sadness left here in my veins  
(Sadness left for me)And I won't be there when you fall  
And I won't care at all  
Not this time, not this time  
Not this time, not this time  
Where you stumble's where you fall  
And I won't care at all  
Not this time, not this time  
Not this time, not this timeAnd I bled for you  
(I bled for you)  
This heart has tried  
(This heart has tried)  
The damage you do is what you never realizeAnd I won't be there when you fall  
And I won't care at all  
Not this time, not this time  
Not this time, not this time  
Where you stumble's where you fall  
And I won't care at all  
Not this time, not this time  
Not this time, not this timeAnd I won't be there when you fall  
And I won't care at all  
Not this time, not this time  
Not this time, not this time  
Where you stumble's where you fall  
And I won't care at all  
Not this time, not this time  
Not this time, not this time
