Definitely Definitely

DefinitelyWhen I see you I see sunshine Clear skies of blue, every time I look at you

You and I sippin' on red wine

I'm so much into you, girl, my love is overdueDefinitely I want this to be

So baby, come to me, you look full and so lovely, yeah

Definitely I want this to be

You're like the air I breathe, you're my ebonyIf lovin' you is wrong I don't wanna be right, oh right

And being bold as I am, I gonna tell you that you're dynamite

It's not a secret love, so baby come on into the light, yeah

Let me love you betterSo definitely I want this to be

So baby, come to me, you look full and so lovely, yeah

Definitely I want this to be

You're like the air I breathe, you're my ebony, yeahDefinitely want
