

Relax

Calvin Harris

Relax, I've come away with a panic attack
The spinning lights make it hard to react
Catch your breath, take your furniture back
It's for the taking, all these girls are waiting

 Love's not god forsaking
 And that's worth celebrating
 Relax, relax

Relax, I've come away with a panic attack
The spinning lights make it hard to react
Catch your breath, take your furniture back
Relax, I've got the coat and the jackets to match

 We can replace everything that you lack
 Take a book and a nicotine patch

It's for the taking, all these girls are waiting
 Love's not god forsaking
 And that's worth celebrating

It's for the taking, all these girls are waiting
 Love's not god forsaking
 And that's worth celebrating

 Relax, relax, relax
It's for the taking, all these girls are waiting
 Love's not god forsaking
 And that's worth celebrating
It's for the taking, all these girls are waiting
 Love's not god forsaking
 And that's worth celebrating

 Relax
