

# Kids

## Style of Eye

(feat. Soso)

I'm wondering what is up with kids nowadays  
You're all so deep, unique and interesting  
Suffering poets with a fashion sense  
Free hand tattoo with a misspelled name  
Everyone's special the exact same way  
You live your life on a Facebook page

Kids just wanna be in  
Don't know what it is  
But you're part of it  
You are the cool kids  
You are the, you know fucking who kids  
Kids just wanna be in  
Don't know what it is  
But you're part of it  
You are the cool kids  
You are the, you know fucking who kids

I'm wondering what is up with kids around here  
You're trying so damn hard to come off weird  
You bought you image in package deal  
Generic hipster got no sex appeal ha  
You're so authentic yeah you're oh so real  
You hurt yourself today to see if you still feel  
Come down, baby come down

Buy another vintage reject another feel  
Pop another pill make a deal with the devil  
Wear your high heels tonight and come closer to heaven  
Let a doctor waste some time on you  
Let him cut you open and drip another drop into the well of a bruise  
For beauty alright then hope your wishes come true  
Post another pic i wanna see that cappuccino  
Look at you, looking lost little human

Kids just wanna be in  
Don't know what it is  
But you're part of it

You are the cool kids  
You are the, you know fucking who kids  
Kids just wanna be in  
Donâ€™t know what it is  
But youâ€™re part of it  
You are the cool kids  
You are the, you know fucking who kids
