

80's Films

Jon Bellion

[Chorus]

Just like the 80s films

We'll hook up in my back seat and let my best friend drive

Just like the 80s films

We'll hook up in my back seat and let my best friend drive[Verse 1]

She said, "How does it feel to be you?"

I said, "It's alright, I really think I peaked in high school"

She said, "That isn't possible, you are out of your mind

Cause we never hooked up in high school"[Pre-Chorus 1]

We just need a night like

We just need a night like this, yeah

Take me back to 9th grade

Take me back to 9th grade shit, yeah[Chorus]

Just like the 80s films

We'll hook up in my back seat and let my best friend drive

Just like the 80s films

We'll hook up in my back seat and let my best friend drive[Verse 2]

She said, "How'd we end up in the parking lot in Smithtown?"

The morning's on its way to sunrise

She said, "The island is long, but life is short in this town

I'm glad we got to redo the time"[Pre-Chorus 2]

We just need a night like

We just need a night like this, yeah

Take me back to 9th grade

Take me back to 9th grade shit, yeah

And just like the 80s films

We'll hook up in my back seat and let my best friend drive[Chorus]

Just like the 80s films

We'll hook up in my back seat and let my best friend drive

Just like the 80s films

We'll hook up in my back seat and let my best friend drive[Bridge]

I can't let go of

Your lips feel retro

You're my Breakfast Club

You're my song from Cyndi Lauper

No more missed times

We fly by street signs

Let your hips rewind

Take me back into the future, yeah[Chorus]

Just like the 80s films
We'll hook up in my back seat and let my best friend drive
Just like the 80s films
We'll hook up in my back seat and let my best friend drive
