Program Director

O.a.r. (of A Revolution)

Program director on the radio won't play my record until the caller tell him so
Program director on the radio won't play no music until the caller tell him so
This one time I flip, call the radio
Man play the record that I been loving so
I sing with the singer
Dance to the flow
I hear my request coming out the stereo
At one time there was a rhythm on my stereo
Pick up the phone line
Send my jam down the radio
Program director on the radio won't play my record until the caller tell him so
Program director on the radio won't play no music until the caller tell him so
So call up, call up I wanna hear the performance
Catch a wave on the air today
Call up, call up bring a rhythm and a chorus
I want to hear it on the air today
One time on the stereo
You could move to a past time from the radio

A rhythm I could groove to
Program director on the radio won't play my record until the caller tell him so
Program director on the radio won't play no music until the caller tell him so
So call up, call up I wanna hear the performance
Catch a wave on the air today
Call up, call up bring a rhythm and a chorus
I want to hear it on the air today
It takes me home
Take me home
I listen to the music, the music will take me home
Shake the floor, move the room with the bass line
Pay my respect to drummy as he keep time
Crank the volume now the song is all mine
Come sound system make the rhythm climb
Program director on the radio won't play my record until the caller tell him so
Program director on the radio won't play no music until the caller tell him so
