Catch me catch me off the track

I'm hearin rummors all these questions
Since I'm fuckin wit strange
Will he flip flop
Will he go pop
Will he fuck up the name
56 villian Gutter children
How the fuck i'm old trash
Gutter livin thats a given
Boy it pumps through my vains
Still rollin Still holdin
Still controllin this thang
Bout to spread it like a plague
And have them screamin the name
In my vision theres a million niggas
Claimin this game
Different faces different places
What we feel is the same
Blood founded dukie brounded
Cock the brim to the duce
If they cripin I aint trippin
Let them niggas in to
A gutter movement with my music
All follow in suit
Sick and tired of the way it is
It's time for the truth
Fuck the indusrie

I'm in these streets
I'm off in the middle
Block hound shoot it down
It's time to ride for my vitals
So let me in you hear me knockin
It's that dog from the block
I'm locked and loaded with this pen
But I still came with a glock. Yeah

M. O. N. S .T. E. rific
I'm so monsterific
I'm just monsterific nigga
M. O. N. S .T. E. rific
When you catch me off the track
They got me rollin on big boys

Sick this dawg on the world
So I can let it be known
I'm in the zone full blown
Villian holdin my own
Criminal since a juvinial
Standin holdin my own
Switched the style
Now the general
Got it and gone
Turn songs in the zone
Homie given the fiens
Move over straight butter
Man it burns so clean
No way I'm just am
36 on the beam
Make the fans say damn
Let the dawg on the team
Spit heaters millimeters
Aim straight for the dome
Street lyrics make you feel it
Like invading your home
Paintin pictures gutter visions
Got em lovin my songs

Tried to kill it
Cause they feared it
But the spirit lived on
Made a change villian locked and loaded
Rockin with strange
Strange music plus my gutter movement
nothin butt flames
Gutter rhythms mixed with venom
Bout to fuck up the game
I'm so tired of all these
Pussy niggas soundin the same, Yeah
