

# Love In the Making

## Mishka

Oh yeah, oh yeah, oh yeah...Rock with me baby,  
like you never ever rock before  
Talk to me lady,  
soothe my soul when I'm knocking at your door  
Hold me much tighter,  
like I'm coming from a long long tour  
Shine your light little brighter  
and guide my ship to shoreHelp me find that peace of mind that come inside,  
that I need so much  
Please be kind girl and rewind back to the time  
when you longed for my touchI knew that it's the middle of the night and you're,  
so tired  
But the moon keeps shining so bright and I'm,  
burning with desire  
And I got this sense of urgency like  
who knows what tomorrow will bring  
Whatever it is girl we could cancel the world  
for the sake of sweet love in the makingRock with me baby, like you never ever rock before  
Talk to me lady, soothe my soul when I'm knocking at your door  
Hold me much tighter, like I'm coming from a long long tour  
Shine your light little brighter and guide my ship to shoreHelp me find that peace of mind that come inside,  
that I need so much  
Please be kind girl and rewind back to the time  
when you longed for my touchI know that is your working day and your,  
your schedule is so pressing  
But if don't take time out to play,  
when we will receive love's blessing?  
And I got this sense of urgency like who knows what tomorrow will bring  
Whatever it is girl we could cancel the world for the sake of sweet love in the makingRock with me baby,  
like you never ever rock before  
Talk to me lady,  
soothe my soul when I'm knocking at your door  
Hold me much tighter,  
like I'm coming from a long long tour  
Shine your light little brighter  
and guide my ship to soulHelp my find that peace of mind that come inside,  
that I need so much  
Please be kind girl and rewind back to the time  
when you long for my touchOh yeah, oh yeah, oh yeaah..
