

Sorry

Bleeding Hearts Syndicate

Some kind of cloud
Is floating inches above you now
You're nothing but shadows on the ground And it's always the same
Should anybody take the blame at all?
They're always gonna hit you when you're down Did we say goodbye?
Have you ever wondered how it felt
To live your life so sorry? Won't let this love song
Fuck my determination,
But still I go crazy to the sound
I'll close my eyes,
My suicide
Does anyone miss me when I'm gone? Did we say goodbye?
Couldn't we just forget about ourselves?
I waste my time So sorry
Did we say goodbye?
Have you ever wondered how it felt
To live your life so sorry? I just try
To think of what I would die for
My time is now
Cause I need things nobody care for
Ain't lost my mind
I'm only freaking out
With no one by my side Did we say goodbye?
Couldn't we just forget about ourselves?
I waste my time So sorry
Did we say goodbye?
Have you ever wondered how it felt
To live your life so sorry? Miss me when I'm gone?
