

Maybe I Could Hold You

The Vaccines

If he was man enough
And if I thought you'd care for
Is being comfortable
If you would ask around
And if you'd find me there
Would it bother you?
I told you what you wanna hear I don't know if that you are
But no one ever made you wonder
And it's getting to a part where Maybe I could hold you
Maybe I could hold you
Maybe I could hold you
I don't want another,
Maybe I could hold you
That could be a reason
If you want someone too What you gave to me
Is not if I kept you
I wasn't looking to
What is history, and what is in the future
Does it matter now
I'm not convinced at first you don't I don't know if that you are
But no one ever made you wonder
And it's getting to a part where Maybe I could hold you
Maybe I could hold you
Maybe I could hold you
I don't want another
Maybe I could hold you
That could be a reason
If you want someone too
