# Harder They Come

## Anarchy

I don't need no one who's gonna turn me down
I need you to let me be
Why is it they always seem to come around?
I don't have time for me
Have some pride, lift your head high
Walk away while you can
Nothin' I can do to save you now
So take it like a man
The harder they come
The harder they fall
You think I'm yours but I'm not at all
The harder they come
The harder they fall around me
The harder they come
The harder they fall
You're confident but you lose it all
The harder they come
The harder they fall around me
Love my freedom
Nothing's gonna take it from me, don't want it to end
I can't see why people always try to change me
That's not my intent
Have some pride, lift your head high
Walk away while you can
Nothin' I can do to save you now
So take it like a man
The harder they come
The harder they fall

You think I'm yours but I'm not at all
The harder they come
The harder they fall around me
The harder they come
The harder they fall
You're confident but you lose it all
The harder they come
The harder they fall around me
The harder they come
The harder they fall

You think I'm yours but I'm not at all
The harder they come
The harder they fall around me
The harder they come
The harder they fall
You're confident but you lose it all
The harder they come
The harder they fall around me
The harder they come
The harder they fall
You think I'm yours but I'm not at all
The harder they come
The harder they fall around me
The harder they come
The harder they fall around me
The harder they come
The harder they fall around me
