Life After You

Runner Runner

Catching my breath
You had a hold on me
Not much left
All just a memory
You left me high and dry
No, I can't breathe underwater, babe
You're killing me
Your dirty little games are telling me
I'm dying for you
(Dying for you)
So what now?
I wanna breathe now
I can live again
Scream out loud every now and then
Go and get back everything
You took from me
I wanna get back friends I used to know
Stay out late at the killer show
Ridin' downtown like we used to do
And just be me
I wanna breathe, I wanna be
I wanna sing, I wanna believe
All the things I can do
There's life after you
(There's life after you)
Letting go
Now the worst is over
You should know I'm okay
I'm so moving on
I'm so over you
So what now?
(So what now?)
I wanna breathe now
I can live again
Scream out loud every now and then

Go and get back everything
You took from me
I wanna get back friends I used to know

Stay out late at the killer show
Ridin' downtown like we used to do
And just be me
I wanna breathe, I wanna be
I wanna sing, I wanna believe
All the things I can do
There's life after you
Don't you come 'round here no more
I feel more like me without you
With you
... is so wrong
I got to be moving on
So what now?
I wanna breathe now
I can live again
Scream out loud every now and then
Go and get back everything
You took from me
I wanna get back friends I used to know
Stay out late at the killer show
Ridin' downtown like we used to do
And just be me
I wanna breathe now
I can live again
Scream out loud every now and then
Go and get back everything
You took from me
I wanna breathe, I wanna be
I wanna sing, I wanna believe
All the things I can do
There's life after you
There's life after you
There's life after you
