

What Do You Want from Me

Lyria

My soul cries
And my ears are bleeding
My mind is haunted
And you don't stop disturbing me
People are out of control
Everywhere and every time
Like ghosts whispering
Chasing me
What do you want from me?
I'm trying to help
But you are so negative
That I can't breathe
can't stand it
I can't solve your problems
I can't stand the pain you've caused me
Just leave me! Let me breathe!
You will not annoy me anymore
I won't let anyone pull me down
I will not!
And I will scream and I'll scream
And I'll be free from you!
