

Butterflies

Fabulous Girls

You're my best friend, my baby
There's no doubts or maybe.
You're my best friend my baby
There's no doubts or maybes

You give me butterflies
You make me feel like I can fly
You got my head in the clouds
You lift me off the ground
And I don't wanna come down

You give me butterflies
You make me feel like I can fly
You got my head in the clouds
You lift me off the ground
And I don't wanna come down

I can't help but smile when I see you
My heart beats so fast when I'm around you
I can't control what I feel inside
You give me butterflies
Put me on cloud nine

You're the one who really understands me
I can be who I am
You never try to change me
Even when it rains and I'm going through things
You're always there and you never complain

You give me butterflies
You make me feel like I can fly
You got my head in the clouds
You lift me off the ground
And I don't wanna come down

You give me butterflies
You make me feel like I can fly
You got my head in the clouds
You lift me off the ground

And I don't wanna come down

You're my beautiful butterfly
Like a rainbow in the sky
Gave me wings now I could fly
Told me never let life pass you by

Anytime I'm sad you make me laugh
Even when I'm down you lift me up
Even when I cry you make my smile
You turn my bad days all around

You give me butterflies
You make me feel like I can fly
You got my head in clouds
You lift me off the ground
And I don't wanna come down

You give me butterflies
You make me feel like I can fly
You got my head in the clouds
You lift me off the ground
And I don't wanna come down

You spread my wings (Like a butterfly)
Make me wanna sing (Feel like I can fly)
You make me feel (Like I'm your butterfly)
It's just you and me (High up in the sky)

You spread my wings (Like a butterfly)
Make me wanna sing (Feel like I can fly)
You make me feel (Like I'm your butterfly)
It's just you and me (High up in the sky)

You're my best friend, my baby
There's no doubts or maybes

You're my best friend, my baby
There's no doubts or maybes

You're my best friend, my baby
There's no doubts or maybes

You're my best friend, my baby
There's no doubts or maybes

You give me butterflies
You make me feel like I can fly
You got my head in the clouds
You lift me off the ground
And I don't wanna come down

You give me butterflies
You make me feel like I can fly
You got my head in the clouds
You lift me off the ground
And I don't wanna come down
