

# You'll Come Back

## TwentyForSeven

It's not like you to stick around  
It's not like you to settle down  
So when you leave, don't expect that  
I'll cross my heart and hope to die  
Cause I've heard it a million times You'll come back, you'll always do  
You're made for me, I was made for you  
Come back, we'll fall in love  
One more time but just enough For you to leave, forget you love me  
But then remember just in time  
For you to come back  
You'll come back, you'll always do You'll come back...  
Yeah you'll come back... It's not like you to fall in love (to fall in love)  
Cause girl you live for the push and shove  
So when you go, don't expect me  
To cry and stay up all night  
Cause I've done that a million times You'll come back, you'll always do  
You're made for me, I was made for you  
Come back, we'll fall in love  
One more time but just enough For you to leave, forget you love me  
But then remember just in time  
For you to come back  
You'll come back, you'll always do You'll come back... You'll come back, you're not fooling anyone You'll  
come back, you'll always do  
You're made for me, I was made for you  
Come back, we'll fall in love  
One more time but just enough For you to leave, forget you love me  
But then remember just in time  
For you to come back  
You'll come back, you'll always do You'll come back...  
Yeah you'll come back...  
Baby, baby, baby please come back...
